Mode/Platform/Location	Face-to-Face	Control No.	eLGU-R2-12-04-2025-S157
Participants	Attached Attendance		

I. RATIONALE

The **eLGU System Refresher Training** conducted for the **Local Government Unit (LGU) of Basco, Batanes** aims to reinforce the LGU's technical capacity in utilizing the enhanced eLGU platforms for frontline services. As part of the DICT's mandate to support digital transformation in local governance, the activity provided updated guidance on system features, data management practices, and operational workflows.

This refresher session was organized to address observed gaps in system utilization, ensure continuity of service delivery, and prepare LGU personnel for upcoming system enhancements. By strengthening the participants' proficiency with the eLGU system, the training contributes to more efficient, transparent, and citizen-centered public service within Basco, Batanes.

II. ATTENDEES

			5				

Male: 0 | Female: 5

C. Consolidated participants

Total number of male attendees	2
Total number of female attendees	6
Total number of attendees	8

II. HIGHLIGHTS OF DISCUSSION

The refresher training revisited the core modules of the eLGU System, particularly the Business Permits and Licensing and Treasury components, to reinforce proper workflows and updated practices. Participants were briefed on recent system enhancements, including interface improvements and streamlined data entry and validation processes. The team also addressed common issues previously encountered by LGU Basco personnel through live demonstrations on configuration, troubleshooting, and maintaining data accuracy. Emphasis was placed on the importance of timely and accurate encoding to support reporting and compliance requirements. The session concluded with an open forum, where participants raised operational concerns, received clarifications, and identified areas where further technical assistance may be beneficial.
